THE STORY

Alevate is a range of aluminium roofing sheets manufactured by MBS Aluminium Industries Pvt. Ltd. It is a range of enduring, eco-friendly and beautiful roofing sheets designed for Industrial and Commercial structures.

The finest quality of Aluminium is crafted into world class roofing sheets in our state-of-the-art manufacturing facility. The vast experience and rigorous R&D put in by the team at MBS has been instrumental for creating these revolutionary roofing sheets.

Alevate was established to solve the crucial problems faced by the industries of rising India. Our product empower our clients to unleash their peak performance and thrive against competitors.

We have strived to deliver the highest quality product and the trust and admiration from our customers is a testimony to this fact.

At Alevate, we believe we are more than just an aluminium roofing sheets provider.

We are partners in your growth.

With Alevate, we want you to unleash the performance of your business.

Reach for peak.
Reach for glory.

Come, elevate your business
with

ALEVATE
— PERFORMANCE AT ITS PEAK —

WHY ALEVATE ALUMINIUM ROOFING SHEETS?

1. 100% RUSTPROOF

Alevate roofing sheets are roof that lasts generations.

It is rustproof with an exceptional long-life of more than 40 years as compared to other corrosive metals.

With Alevate, your commercial structure will weather all seasons with same beauty, demand negligible maintenance cost and reduce your cost of ownership dramatically.

Ensure peace of mind for lifetime with roofing sheets that lasts long!

GuardTech™ each aluminium used to create Alevate sheets goes through our proprietary processing system. This sophisticated process includes heat treatment, annealing and a transparent oil resin coating.

It gives the aluminium the characteristics to perform with strength even in most drastic weather conditions

2. EXCELLENT INSULATION

Alevate roofing sheets are excellent heat insulators. It keeps unit cooler by upto 6 degree celsius and guards it against the heat during burning summers.

In a country like India which remains sunny most part of the year, Alevate can do wonders to your business.

It will keep workplace cool, improve productivity and efficiency of your workforce and reduce electricity costs resulting in holistic performance improvement.

WHY ALEVATE ALUMINIUM ROOFING SHEETS?

3. ECO-FRIENDLY

Aluminium is one of the most environmentally-friendly metals on the planet. Due to its long life & recyclability 75% of 1 Billion tons of aluminium produced in last 100 years is still in use. Used Aluminium can be easily discarded and sent for recycling.

It can be recycled infinitely to make exactly the same product which is why it is considered one of the most valuable item in your recycling bin. It wears a coveted crown of most recyclable industrial material. Aluminum recycling energy savings are also huge – around 95%

When you buy an Alevate roofing sheet, be rest assured of your contribution in nurturing our planet.

The level of land degradation and carbon footprint in the environment is reduced dramatically when an Aluminium is recycled.

4. LIGHT WEIGHT

Alevate roofing sheets are light and durable.

Light weight reduces the load on structure giving more structural stability and integrity in the long-term. Consumers can reduce their cost of operations with Alevate.

5. HIGH RESALE VALUE

Alevate roofing sheets fetch up to 60% of the market value on resale. That means, not only it serves you during the lifetime but also after that.

Alevate is not a cost but an investment for your business. An investment that is safe & secure.

6. ALUMINIUM FROM VEDANTA

All our roofing sheets are made from the finest quality of Aluminium sourced from the biggest Aluminium Company of India, BALCO-VEDANTA.

7. ENGRAVED MARKING

For the first time in India, Aluminium roofing sheets have engraved marking. Alevate is pioneering this non-removable marking which stands as a symbol of trust and quality.

APPLICATIONS

- Industrial Warehouses, sheds and halls
- Industrial Plants & Manufacturing facilities
- Bus and Train terminus
- Cladding
- Parking Bays
- Stadiums
- Airports and Seaports
- Residences
- Hotels and Shopping Malls

With Alevate, your unit will become a piece of art.

Our delightful quality ensures functionality to your business but also the aesthetic it needs.

Key Specifications :

1. IS 1254: 2007 Approved : Alevate signature profile design is the only design which abides by the guidelines of Indian Standard IS 1254: 2007 for aluminium corrugated roofing sheets.

2. Anti Capillary Groove : Alevate's anti capillary groove is designed to make the sheets leakproof. The groove makes sure that not a single water droplet gets leaked inside the roof.

3. Optimum Coverage: Alevate's Industrial troughed sheets are designed to provide a optimum coverage of 980 mm after overlapping.

4. Light but Strong : Aluminium sheets are light weight as compared to PPGI and Cement sheets which can reduced the cost of your structure and our Specialised roofing grade aluminium with combination of industrial troughed design gives perfect strength to the sheets.

5. Customised Length : We provide the length of the sheets as per your requirement. So you don't have to worry about any wastage.

6. Thickness : 0.60mm, 0.71mm & 0.91mm
